

TROUGH COVER

What about their water? When you irrigate with farm dairy effluent, you're fertilising the water troughs at the same time.

PROTECT YOUR WATER FROM CONTAMINATION

Quick to install and remove

Easily transportable

**Trough Cover Std is made to fit troughs up to 2Mtrs diameter.
Trough Cover 2.5Mtrs diameter is also available for larger troughs.
We also make covers to fit the full range of Humes CBC troughs.**

Covers come with a frame made of Aluminium framing and the cover is made of U.V stabilised fabric.

Trough Cover is a totally portable cover and frame. Our standard Trough Cover is designed to fit virtually any sized trough up to 2Mtrs diameter. We also make a 2.5Mtrs diameter cover and frame for bigger troughs. Prevents water contamination principally from effluent sprayers and from fertilizer spreaders.
